**DEATH TOLL IN
WRECK IS FIVE;
CREW CENSURED****Improper Handling Believed
Cause of Freight's
Wild Race.****GENERAL MANAGER'S STATEMENT****Besides Crew, Bodies of Two Others
are Found and More May Be Buried
Beneath the Debris—Injured Fireman
is Dying, Brokenman is Better.**

The toll of death in yesterday's terrible wreck on the Connellville division of the Baltimore & Ohio railroad is placed at five today. It will likely grow. In addition to the two firemen known to have perished, another is missing and the body of one in doubt. Besides these, two other bodies were found in the wreckage. One was that of John Evans, a pumper who lived at Hyndman, and the other supposedly a tramp.

Just what has become of Fireman C. S. Gardner is in doubt. Although the official report of General Manager C. W. Gallaway states that he is found from his locomotive with Engineer George Kimmell, all other reports state that the fireman is still missing and he is supposed to have perished.

That the train was improperly handled is the conclusion reached by General Manager Gallaway, who states that a conclusion reached by the proper authorities before the wreck. The fact that the train was not held under control if all precautions had been observed.

With the death toll now standing at five, it is expected to be increased. Fireman Max A. Specht is dying in the Cumberland hospital but Brokenman H. Henry Smith has some chance of recovery. He is also in the Cumberland hospital. Both men were badly injured. Specht's wife arrived in Cumberland from Waynesboro, Pa., today.

Engineer George Kimmell, who escaped by jumping from his locomotive, and General Manager Gallaway, who at one time resided in Connellville, are not seriously hurt.

The body of Engineer C. S. Martz, of Hyndman, was found under the wreckage at 10 o'clock last night. The ears and engines were piled in such a manner that the wreckage crew could not tell whether Martz had made an attempt to escape or his engine was being crushed by the wreckage. The body was found in the wreckage of the train to the last. He was crushed terribly.

The body of John Evans, a pumper from Hyndman, was found in the wreckage of the second engine, according to the wreckage crew. The body was found from them. Evans was employed as a pumper at the Sand Patch tunnel improvements and had climbed on the freight to ride home.

An unidentified man, supposedly a trespasser, was found out. His body, crushed between two cars when they left the track, was taken to Rockwood on a coal car.

Search throughout the night failed to reveal G. S. Smith, brokenman, and C. S. Gardner, fireman. Some wreckage crew thought they saw Gardner jump from his engine. The wreckage crew cleared last night, and all east and westbound passenger and west bound freight were sent over them. The eastbound freight was detained over the Western Maryland line. The wreckage crew left the scene of the wreck last night, but the Connellville and Cumberland crews remained. One body here today said the third body would be cleared probably by tomorrow.

With respect to the wreckage crew, G. S. Smith, General Manager of the Baltimore & Ohio railroad made the following official statement as to the cause of the accident:

"Engine 254, in charge of Engineer C. S. Martz, backed out of the station at Rockwood, and on account of the mountain grade, engine 254, in charge of Engineer George Kimmell, coupled on ahead to assist from that point. They moved over to Garrett and picked up 22 additional loads, which completed their train, making 42 loaded cars in the train after leaving Garrett. This required the assistance of a second helper, which is the customary practice. The engine 252 and coupled on the rear.

"The train then proceeded to the top of the mountain at Sand Patch, where the rear helper was cut off. This left the two engines on the head end of the train and appeared from the information so far at hand, that it was the purpose of the crew to take the head engine through and cut it off at the head end.

"Engine 254, in charge of the head engine, says that the air was blown at Sand Patch and was in working condition, and he believes that the angle cock of the air brake was turned behind the tank of his engine, cutting off the braking power, which is always in the case of two engines, controlled by the head engine.

"It makes the statement that the speed of the train increased immediately after crossing the summit of the mountain and entering the tunnel. This condition we are unable to account for and there is every indication that the train was improperly handled, but all the facts with respect to this are not obtainable at this time and can only be

**STRONG PROTESTS AGAINST
COP VOICED TO COUNCIL****Chairman of Police Committee Urged
to Keep Armored Man Off
the Force.**

Indications are that P. M. Hall will be dismissed from the Connellville police force, according to Chairman E. C. Hetzel this morning. Chairman Hetzel said that so many complaints from citizens have come to him that although Hall's suspension on the embolism charge will be brought before the Police Committee in a special meeting, in all likelihood, he turned down, even if Hall vindicates himself.

Hall's suspension came yesterday afternoon after a score of men, including several ministers, registered protests against his continuance on the police force. Besides the appearance of citizens, Chairman Hetzel also received several letters, all protesting against Hall as a policeman. Most of the letters were anonymous. All asked for reform in the police service.

One letter even went so far as to inquire if Connellville had a "becker" on its police force, but Chairman Hetzel said that query no consideration. The writer did not sign his name.

Hall will have a hearing before Justice of the Peace Monteth of Fairchance on Monday and Chairman Hetzel will attend. The Police Committee meeting will be held afterward.

**MERCURY TAKES TUMBLE AND
STAYS THERE, REAL CHILLY**

Average Temperature Yesterday Was 21 Degrees, Lowest This Winter.

It was really cold all day yesterday, for the first time this winter. It was not only cold during the early morning hours, but the mercury insisted on staying put, to a certain extent. The highest reached in the 24 hour period ending at noon was 23 degrees. This is two degrees under the lowest mean temperature for the preceding days of December.

The December temperature figures have been strikingly quite a bit. The second day of the month saw a mean of 65 degrees, when 54 was the lowest and 70 the highest mark recorded for that period.

But today, 20 degrees had been the lowest mean temperature but the drop to 21 set a new record for Jack Frost to aim at.

POLICE AFTER LIMERICK

Washingtonian Causes Sensation in Lawyer's Office.

Charles A. Limerick, a wanderer from Washington, D. C., of highly respectable and well-to-do family, almost caused a stampede when he suddenly appeared at the office of St. Paul Francis, Cumberland attorney and examiner.

"Limerick is my name and I am an administrator of an estate of some \$275,000, and I want to file a petition on the 15th inst. to have my death certificate annulled. I have been advised by my attorney in Washington to do this."

Limerick dictated seven letters in which he ordered various people to call on his lawyers and bankers in Washington and collect some money ranging from \$5,000 down to several hundred dollars. Later, it was alleged, Limerick tried to get checks cashed on Cumberland and Washington banks, and the police are looking for him. He had previously visited a number of law offices with tales of wealth.

**FEDERAL BUILDING WILL BE
OPEN FOR USE ON DEC. 28****Postoffice Will Occupy Its Handsome
New Quarters Near the Close
of the Year.**

Connellville's new postoffice will be opened on the morning of December 28, if sometime unforeseen does not prevent, according to a statement by Postmaster W. E. Kurtz this morning.

The plan is to move on the night of December 27 from the building on South Pittsburgh street. Postmaster Kurtz said the new postoffice at Arch and Apple streets will be completed then. Part of the equipment has arrived, but the working equipment is to come. Only the latter's failure to arrive will prevent the opening at the time set.

Workmen yesterday afternoon completed the flooring in the big workroom, and the others of the force are putting the final touches to the structure's interior.

With the completion a special opening to give the public opportunity to inspect the building may be held on the night before the transfer from the old building is made.

**ARREST MADE IN SWINDLE

United Press Telegram.

NEW YORK, Dec. 13.—The arrest of Albert Carter in St. Augustine, Fla., according to Deputy Police Commissioner Daugherty today, will result in the conviction of a gang of swindlers who reaped \$20,000 in a scheme in which S. M. Jones, a wealthy coal owner of Pittsburg, was the victim.

Deputy Commissioner Daugherty said a man appeared before Jones last September, and explained that he was R. E. Holmes. The man asked for information about coal land and said he represented a syndicate headed by "Sir George."

United Press Telegram.

PITTSBURG, Pa., Dec. 13.—Probably a dozen people were severely injured today when a costly and spectacular fire destroyed the apartment building on the North Side known as Library Place, occupied by more than two hundred persons. Twelve rooms on the first floor were destroyed.

Many of the occupants of the building threw themselves from the windows or crept to safety on swaying ladders. The intense cold added to the suffering. Fourteen women were rescued from the fourth floor.

The fire department was kept on the jump by a series of alarms from small fires throughout the city. Following the sounding of a triple alarm, twelve fire companies from the North Side and three from Pittsburgh proper responded and fought the flames, which were believed to have been started in a print shop in the basement, and soon shot up the elevator shafts of the four story building, which covered an entire block.

Ten persons including four firemen and a policeman were hurt when the cornice from the blazing structure fell, and were hurried to the Allegheny General hospital. Several persons were reported missing, but are thought to have escaped in the excitement.

The building was erected 40 years ago and was dry as tinder. Women and children in the three upper stories became hysterical and had to be dragged to safety. One woman was dragged out of her room to which she insisted on returning to get her hat. Mrs. E. W. Miller, aged 46, was unconscious and her clothing and hair were in flames when rescued from her room by Policemen Kerr.

The loss will exceed \$200,000. Firemen were fighting hard to prevent the flames from spreading to Charter's grocery store, occupying the street front numbers adjoining but with little success.

Beautiful, Wavy, Lustrous Hair in a Few Moments

Girls! Get a 25 Cent Bottle of "Dandruff" and Try This Also Stops Falling Hair! Destroys Dandruff

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and as beautiful as a young girl's after a "Dandruff" bath. It is a fact that a "Dandruff" bath will draw it through your hair, making one small strand at a time. This will cleanse the hair of dirt, dandruff and excessive oil and in just a few moments you have added the beauty of your hair.

It also has the effect of making the hair grow faster, dissolves every particle of dandruff, cures itching and irritation of the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually get new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lot of it, surely get a 25 cent bottle of "Dandruff" from any drug store or toilet counter, and just try it. —Advertisement.

"TRAVELING SALESMAN" IS AT THE SOISSON THEATRE

Clever Comedy Returns This Evening to Cheer the Lovers of Good Plays.

"The Traveling Salesman" comes to the Soisson theatre this evening for its second appearance in Connellsville. Two years ago Frank McFinty, Willie Sweetman and an all-star cast appeared in the production, which was witnessed by a large audience. It made a decided hit.
McFinty is now scoring heavily in musical comedy and Sweetman made "Excuse Me" famous, but the present company is said to be more than capable. Since that time, too, Henry B. Hays, who is here, is offering his admirable productions, polished on the Titanic.

Although the old stars are not returning—and few small towns ever have the opportunity of seeing them—the "Traveling Salesman" is getting enviable notices around the circuit.

Why Women Are Not RICH.

Man is a millionaire many times over in the possession of blood cells. Woman is not quite so rich, for scientists have proven that the normal man has five million—the woman only four and a half million to a cubic millimetre of blood.

A decrease in number of red blood corpuscles and a person "looks pale"—in fact, in anemic, the blood does not get the right food and probably the stomach is disordered.

Dr. R. V. Pierce found years ago that a glyceric extract of golden seal and Oregon grape roots, queen's root and bloodroot with black cherry bark, would help the stimulation of the food in the stomach, correct liver ills and in Nature's own way increase the red blood corpuscles. This medicine he called Dr. Pierce's Golden Medical Discovery. By assimilating the food eaten the system is nourished and the blood taken on a rich red color. Nervousness is only "the cry of the starved nerves for food," and when the nerves are fed on rich red blood the person loses those irritable feelings, sleeps well at night and is refreshed in the morning.

"I was attacked with a severe nervous disease, which was caused by a disordered stomach and liver," writes Mrs. J. A. D. Lively, of Washington, D.C., "I tried many remedies, but all my friends thought I would die and the best physicians gave me up. I was advised to try Dr. Pierce's Golden Medical Discovery, and derived much benefit from same. My case had run so long, it had become so chronic that nothing would effect a permanent cure. But Dr. Pierce's medicine has done much for me and I highly recommend it. I have purchased it as a family tonic, and further advise all people to take Dr. Pierce's medicine before their diseases have run so long that there is no chance to be cured."

INDIAN CREEK COAL MINES.

The Indian Creek Valley coal field is threatened on the one hand by the injunction suit of the Mountain Water Supply Company, and handicapped on the other by the alleged discrimination against it in the matter of through freight rates. In spite of these obstacles, its early development is inevitable if its ownership falls into large operating hands.

The suit of the Indian Creek Valley operators and the Indian Creek Valley Railroad Company against the Baltimore & Ohio Railroad Company, to compel the latter to extend the Somerset county rate to the Indian Creek field and absorb the Indian Creek Valley railroad's charges, will soon be heard by the Interstate Commerce Commission, and the decision will be awaited with interest as well technically as commercially.

The preliminary statement of the Indian Creek Valley railroad is ingenious in argument and interesting in detail. While the ultimate consumer will at first glance probably fail to see any measure of equity in the proposition that the Baltimore & Ohio shall extend the Somerset rate of Indian Creek, and absorb the latter's charges, he will be able to see that it will promote competition.

It is evident that the B. & O. will receive less revenue from the Indian Creek business as compared with the Somerset county haul, because of the payment of the smaller road's charges and the somewhat longer haul outward, yet the policy of regulation by commission has been to make rates equitable as between competing regions or districts and uniform within the limits of the same. The Indian Creek Valley operators say they are properly classified with the Somerset county coal region and should take the same rate and haul. The argument is a forcible one.

If the contention of the complainants is upheld by the Interstate Commerce Commission the question will arise what will be an equitable rate for the Indian Creek Valley railroad in other words, what share of the through rate eastward should be awarded the smaller line which hauls but 20 miles the coal which the main line system hauls 200 miles. The board rate would vary, because of the destination of coal consignment, all-rail coal being higher, while coal for vessel shipment takes a lower rate. Upon what grounds this is justified does not appear. It suggests that possibly all-rail consumers may have cause of complaint.

The rates now charged for Indian Creek Valley coal shipments to Baltimore and Philadelphia seem to be equitable considering the length of haul, for example, the haul from the available region is 212 miles and the rate \$1.60; the haul from Indian Creek is 270 miles for which a rate of \$1.50 is charged, while the proportionate rate would be \$2.02.

The Indian Creek coal cases, both with regard to water pollution and freight discrimination, promise to raise some questions which will do more to advertise the Indian Creek field than any other form of publicity, and it is not possible that this valuable consideration has not been wholly overlooked.

GREENE COUNTY COAL SALES.

Within the last few years, The Courier has suggested that the Connelville and Lower Connelville coke regions in new demand were approaching exhaustion more rapidly than most people expected, and that the only remaining coal of like character, namely, that of Eastern Greene county and southeastern Washington county, would soon be exhausted by the march of coke region development.

This year has seen that development actually begun.

There have been a number of large coal purchases in this field and most of them will be under operation in the near future. The latest purchase, aggregating over a million dollars in value, was made by a leading coke operator of the Connelville region, whose family for generations have been in the coal and coke business. His thought for operation and his purchase indicates the confidence practical men of proven knowledge have in the Greene county field.

However, it is no longer a question of quality, but of area and of price. The area is limited and as the acreage passes into operating hands the value of the remainder will rise. There have been better times to buy Greene county coal, but a wide market and manufacturing interests will probably never find a better time than now.

The Greene county field is undoubtedly destined to go through the same experience as the Lower Connelville field, where prices rose from \$1.00 to \$2.00 per ton.

The State Game Commission wants more stringent game laws and more game wardens in order to protect the game birds and insure the raising of game. What the State needs worst is more fish and more fish wardens. Hunting is expensive sport, fishing is a poor man's solace. Our streams are capable of materially reducing the high cost of living, but a game diet is too ill-considered for economy.

East Park is meeting all the requirements of annexation.

The Money Trust is being discovered by the Money Trust. When it has been found it will probably be found that it does not do a trust business after all.

Some of the ballbirds will go just for Christmas, but it will not be as welcome as it looks.

The roadmakers are racing with winter. These races are annual events.

It has been repeatedly stated that the Connelville coke region would have some coal left after it went out.

of the coke business, but the statement has never been taken seriously. It is nevertheless true, and at least one enterprising owner is already reported to be going after the deeper seams. The developments will be of decided interest.

The hat pin and the steel corset are woman's weapon and armor.

The children are being moved out of West Virginia's strike zone. It might be an excellent idea to move the strikers out, too. There's plenty of work at good wages waiting for them in other coal regions. The Connelville coke region is short of men.

If Congress approves the recommendations of the Government engineers, and appropriates \$3,000,000 annually for five years for the improvement of the Ohio, it will help that good work materially.

Gospel vaudeville continues quite popular in McKeesport. The Very Reverend Billy Sunday is lecturing on politics and pugilism.

TO ADD NEW ROOM TO TOWNSHIP HIGH SCHOOL THIS TERM

East Huntingdon's Fresh-
man's Class Has Become
Too Large.

LIBRARY MUST GIVE WAY NOW

Scarlet Fever Reported in Hawley
School and Case of Diphtheria at
Pacittown—Fire Alarm Sounded for
Chimney Blaze—Other News Notes.

SCOTTSDALE Dec. 12.—An addition to the room will be established at the East Huntingdon township high school at Altoona, following a conference between Principal Samuel L. Paustol, the township board of directors. The freshman class has grown too large for the present quarters and has virtually divided itself into two because some of the pupils have advanced more rapidly than others on account of better training in the lower grades. The directors decided to use the room now occupied by the library for teaching purposes.

CONTAGIOUS DISEASES.
It is reported that a case of scarlet fever has developed at the Hawley school, near town, and that the building was disinfected. A case of diphtheria has been reported from Pacittown.

CHIMNEY FIRE.
The Fire Department was called to Hickory street last night by a blaze in the chimney of Richard Patton's residence. The damage was slight.

CAPILOTS TO PLAY.
The Capitol building team will play a return game with Connellsville at that place this evening. A week ago the Capitols on their own arena lost to the Mud Islanders by a score of 14 plus. The Capitols rolled a score of 143 to 145, and the Connellsville team was high man with a score of 730, while both were high for the Capitols by a score of 521. Quite a number of the visiting enthusiasts will accompany the home team to Connellsville.

TO PUBLISH NAMES.
The Woman's Christian Temperance Union of Altoona say they will publish the names of all persons who make applications for those who seek to secure license to sell liquor in Altoona. Also they will do the same thing with anyone willing to do the same in behalf of prohibition, for the information of the public.

IS RECOVERING.
Mrs. J. J. Townsend, of West Newton, daughter of Mr. and Mrs. Pressley Clifton, and sister of Carl C. Clifton and Mrs. Stuber Hill of Connellsville, is reported to be recovering nicely from an operation at the Mercy Hospital in Pittsburgh.

CHRISTMAS.

A Suggestion to Papa or Mama Santa Claus.

In hundreds of happy Connellsville homes the coming Christmas will be an unusually jolly one. It will be brightened by the fact that we are enjoying such prosperous times. Papa Santa Claus will carry a large sack of toys, candy and fire-crackers than ever before, but we hope the jolly old gentleman won't forget, now that money is so plentiful, that every child should have a savings account in his or her stocking on Christmas morning. You can open it, Mr. Kelt Ringle, at the First National Bank of Connellsville, with \$1 or more, in the name of anyone you wish to remember in this way. And don't forget that the bank is old and safe and strong and pays four per cent.—Adv.

THE TRAVELING SALESMAN

TONIGHT

Announced! All who have seen the Traveling Salesman in the latest laugh production on the American stage, "The Traveling Salesman," will be offered for local approval at the Soisson theatre tonight. Each one of these laughs is the result of a natural, plausible situation in the life of a traveling salesman on the road. To add zest to an already enjoyable performance, Mr. Forbes has introduced in his story a bit of plot and there

Bob Blake, a jolly drummer who impudently produces his position by coming to the rescue of a young girl who is about to lose her property, is a character that the public loves and admires. His hearty laugh and uniform good nature is bound to create for him a warm circle of friends in this city.

The company which will present this comedy in our city is a carefully selected aggregation and is composed of actors of ability and reputation. BRONCHITIS PREVALENT

Brooklyn N. Y. Man Told of Best Remedy.

At this season of year with such sudden changes, it is so easy to take cold, and almost before one is aware there is inflammation in the bronchial tubes—a hard cough and unless checked in time chronic pulmonary troubles result.

Without a trace of Brooklyn, N. Y. says: "A severe bronchial trouble contracted in January caused me such distress about my chest that I felt I was going to die. I tried different remedies without help but I am glad to say that I have been cured by the use of Olive Tablets. My breathing is all right now and the soreness entirely gone from my chest."

Old Glass Bottles Worth a Penny or Two Will Be Bought For a Dollar—H.

For tired, overworked and run-down people, there is nothing better than Bear's Emulsion. It builds up the system, gives strength and health. It aids digestion by building up the stomach. And at the same time builds up the whole system. Now is the time to get your body strong and healthy, before the spring weather comes, which as you know, is the hardest time of the year on weak people.

We ask every run-down, nervous, aged, weak, or suffering-with-weakness person to try a bottle of Bear's Emulsion with the understanding that if it does not do as claimed, he shall return the empty bottle and get exactly what he paid for it. "Every Little Olive Tablet Has a Movement Ail It's Own"

Your doctor will tell you ninety per cent of all sickness comes from impure bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil, to act on the liver and bowels, which he gave to his patients for years.

Olive Tablets, the substitute for castor oil, are gentle in their action, yet always effective. They bring about that exuberance of spirit, that natural buoyancy which should be enjoyed by everyone by toning up the liver and clearing the system of harmful impurities.

THIS, WRIGHT-METZLER'S, IS ONE CHRISTMAS STORE THAT IS NOT AN EMPTY BOTTLE WITH A BIG LABEL ON IT.

"BLESS THOSE WOMEN!"

Think this over. Who really brought Christmas to your house—last year, and every year before, as far back as you can remember: and to the house on the back street, and who wouldn't even let the alley tenement be wholly cheerless? Woman! Directly or by her influence.

"Bless those women!" wrote the chronicler of Bob Cratchit and Tiny Tim. "They never do any thing by halves; they are always in earnest."

It's highly probable that the ghost who led old Scrooge to better things was a woman!

Yes, Santa Claus is "he"—the masculine is applied to might and strength—but Santa Claus is love; great, deep, inexhaustible, everlasting mother love. Man, it seems is scarce worthy to be the symbol of Santa Claus.

Our hats are off to the women! Here's hoping that the best and finest gift-things of the season will be theirs.

Imitation Ivory

IS A SPECIALTY OF THE

First Floor Holiday Store

Real ivory, long the luxurious ideal of the dressing table, but too costly for universal use, finds its greatest rival in imitation ivory.

This composition so successfully imitates the beauty of elephant's tusks that, excepting for the value it would have—if real—it's artificiality need not be considered.

Every Toilet Article for the dressing table can be had in Imitation Ivory.

Hair brushes with fine bristles, mirrors in several styles, different kinds of combs.
Puff boxes, nail boxes, trays, jewelry boxes, manicure articles, button hooks, shoe horns, hat br. shoes, bonnet brushes, military brushes, pin cushions, talcum powder shakers, tooth powder boxes, hat pin holders, hair receivers and vanity boxes.

When engraved with initial or monogram, a set of Imitation Ivory may be compared advantageously with silver, gold or even of real ivory.

The collection here is big and fine. That it outranks any in town, we are told day by day.

Early selection is advisable, if you intend having the pieces engraved; and more so, because the assortment is unbroken now.

Old Ivory-Colored Enamels

Very new—not shown before this season—these enamels have become a general favorite among all classes of gift buyers. Inexpensive, durable for a life-time, rich in appearance and neat in design, washable when soiled—ivory-colored enamels effectively take the place of the cheaper gold and silver novelties which remain pretty for an uncertain time.

Just Perfumes and Toilet Waters IF FOR A GIFT—SELECT CAREFULLY.

Few folks give perfumes and toilet waters the thought they deserve.

We know in a general way that they should have a lasting, faintly sweet and subtle odor; but it takes a store some time to find out how scarce such things are.

—and a great deal of searching to find the most lasting, daintiest and unusual odors in perfumes, toilet waters and sachets. As a result of close and long association with the best distillers of the flowers' elusive fragrance—

Wright-Metzler's Perfume Store has become sponsor for a collection of refined perfumes and like things that we know to be unsurpassed anywhere in town.

We have collected the best that is produced in America, London and Paris.

The breath of a single flower! or the mingled sweet fragrance of a whole bouquet! Prices begin at 50c and mount by degrees to \$15.00; including the exquisite Mary Garden, Trentini, and the best from Hubigant, Roger & Gillet and Lt. Piver.

New Ideal, Azura, Floramye, Djer Kiss, Muguet and Le Trefle at \$1.40 to \$3.00 a bottle for toilet water; 75c to \$2.00 an ounce for perfume and 60c to \$1.50 a bottle for sachet.

A MAN'S CHRISTMAS DEPENDS MUCH ON HIS CLOTHES

Perhaps it is unnecessary to say so, but no man can come in here and pay more for a suit or overcoat than it is worth. There's something to think about in that sentence. Every one of us has bought clothes at some time and paid more than we thought they were worth.

Here's Another Point:—There is an overcoat or a suit—or both—here for every man except the man who is indifferent as to quality.

And Still Another:—We could mark our clothing higher without injustice, if we went by the market valuations. We might mark them lower—but something would be lacking.

Just one More:—A wise man with a suit or overcoat problem to settle will get it off his mind today.

Men's Suits \$10 to \$30; Overcoats \$10 to \$65

—and each garment comes from a maker who puts merit in his clothes that makes the clothes cost us a little more than other merchants about town would pay without charging the customer more than we do. It's all new—style color and fabric.

Man Likes a Useful Gift

"There's nothing new you can buy, he has everything," is the cry we often hear. And true it frequently seems. Perhaps he has enough jewelry or does not care for it. Perhaps he considers things, not useful, an idle waste of good dollars. If you are confronted by such a dilemma,
